Apparo Support

If you have questions about how to use Apparo please send an email to the support department:

support@apparo.solutions

The Apparo support needs the following Information:

- Your **current version of Apparo Fast Edit**, for example 3.3.0.0

- Your **current database version** (for example Oracle) that is used for the **data source**. This data source is used by your business case

- **An accurate description of the problem** – if you have problems with a business case it is helpful if you export this **business case** and send the XML definition to the support too.
