Apparo Fast Edit

Version 3.1 comparing with version 3.0

What is new?

APPARO®

Group

Web Portal for standalone version:

- access management

- folders

- running of Business Cases

- running of external web applications

- support of different security systems (Active Directory, LDAP)

- ready for tablets (there is a tablet mode with tiles like in Windows 10)

- Dashboard functionality – showing measures

- supporting customer CI (colours, logos, texts)

- Flexible URL for opening

Defining of standard colours, sizes etc.

- Each client has own settings for colours, sizing for Designer in the web settings

- Each client has own settings for standard colours, sizing for Business Cases in the web settings

- Own CSS definitions can be used to overwrite standard CSS

- New optical design of Apparo Designer and Business Cases

- Web Server is part of the Apparo setup and can be installed automatically too (Windows only)

Live-System version 3.1
