

Apparo Fast Edit

Management of data in an BI system and standalone together

Architecture for a mixed environment:

BI system & stand-alone

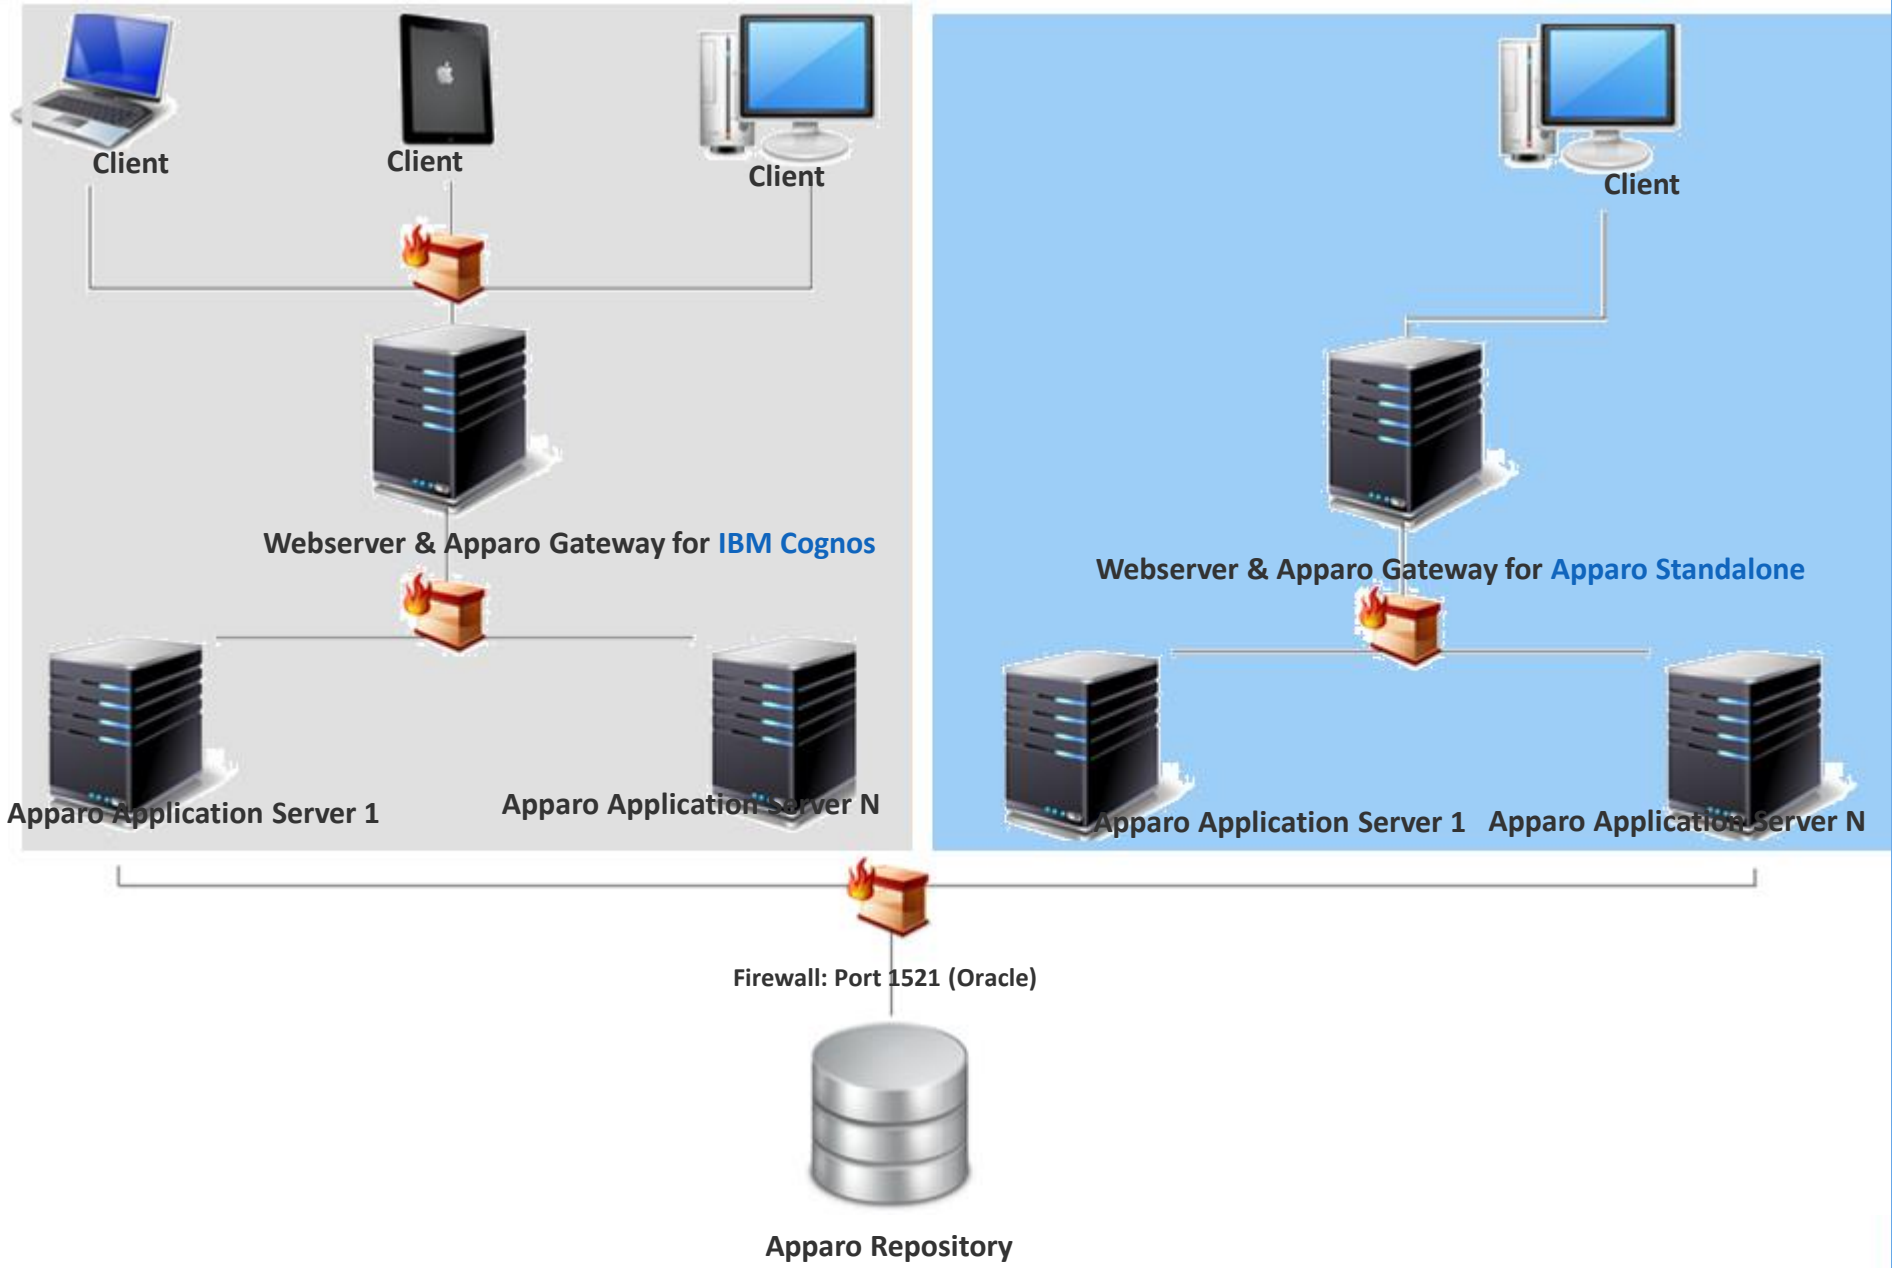

**A „mixed environment“ means:
Apparo Fast Edit installation with Apparo application
server(s) for**

- * IBM Cognos or**
 - * SAP BusinessObjects or**
 - * QlikView or**
 - * SAS**
 - * Apparo application servers stand-alone**
- clustering**
 - using the same Apparo repository**

Advantage:

Working places without BI license can use the same Apparo Fast Edit Business Cases:

reducing license costs
